1.5 hour exam plus 45 minutes flex time= 2 hours and 15 minutes
 2 hour exam plus 1 hour flex time= 3 hours (in bold type)

January 31st is an exam day. It is reserved for missed exams, summative work and other credit options.

PLEASE READ THE EXAMINATION INSTRUCTIONS ON THE BACK OF THIS PAGE

LISGAR COLLEGIATE INSTITUTE
EXAMINATION INSTRUCTIONS FOR STUDENTS

1. **Students are responsible for knowing their personal examination timetable and for ensuring they are present for each examination.** All examinations must be written at the times that are indicated on the examination schedule. Subject teachers will inform students of the rooms where they will write their examinations.
2. **The exams listed on the other side of this sheet are compulsory for all students. The only legitimate reasons for missing an examination are a family emergency or student illness.** In these circumstances, a parent or the student (if an adult) must call the school in advance of the examination (239-2696). **In addition, students who miss examinations because of illness must provide the school with a medical certificate by Monday January 30th.** Students who have no legitimate reason for missing an examination will receive a mark of zero for the examination. If families have special requests because of emergency travel requirements, parents should write directly to the Principal of Lisgar C.I.
3. **Length of exams:** Most Grade 9 and 10 exams are set to allow completion for the majority of students in 1.5 hours. Most Grade 11 and 12 exams are set for 2 hours. Students must remain in the examination room for the first hour of their scheduled exams. This exam schedule acknowledges individual differences and that high stakes summative assessments need to be flexible. An equivalent amount of flex time is available for Lisgar students; therefore time and a half will be provided to complete exams for all students.
4. Students not writing an examination may study at home. Those who choose to come to school are to study quietly in the library or cafeteria. Sections of the school in which examinations are being written will be out of bounds. Quiet access to lockers is permitted at the end of the examination.
5. Students who require the use of computers or scribes will be notified by the Special Education Department.
6. Should exams be postponed because of inclement weather, heating/cooling system or electrical breakdown, etc., the “bump and slide” principle will apply; each day’s examinations will be written one day later than originally scheduled. Should this occur, students must be available to write all of their examinations.
7. Students who arrive late for an examination will be admitted only during the first hour of the exam with no provision for extra time. If a student is more than one hour late for an exam, he/she must report to the office.
8. Within the examination room, it is the student’s responsibility to (a) follow directions given by the teacher(s) in charge (b) bring the required materials (i.e. pen, pencil, ruler, subject-approved calculator, etc) and any other items specifically permitted by the examination (c) check that all parts of the examination have been received (d) turn in the examination with his or her name on all sheets (e) raise his or her hand if assistance is required (f) refrain from communicating with other students in any way (g) **not have** in his or her possession any unauthorized materials which appear to be for the purpose of getting or giving assistance to oneself or another student (h) leave all textbooks, notes, binders, and pencil cases in lockers; please do not bring them to the examination room (i) check calculators to ensure there are no extraneous items programmed that may be construed as “crib notes.” **Students must leave knapsacks, coats and books in their locker. This includes cell phones and mp3 players as well.**
